

Incident report

Incident no: INC-0013

Site: S-012

Zone: CROSS-2

Location: Cross aisle 2, door D5

Machine: AMR-08

Assets: PJ-0031

Occurred at: 2026-05-19 08:42

Severity: Near miss

Related records: WO-26-0520

Timeline

Time	Event
2026-05-19 08:41	AMR-08 crosses aisle 2 at the declared 0.6 m/s
2026-05-19 08:42	A pallet jack enters the lane; bumper contact and stop
2026-05-19 08:44	Operator confirms nobody hurt and clears the lane

Description

A pallet jack driven by a picker entered the cross aisle from behind door D5. The robot stopped on its bumper. The picker was not touched.

Root cause

Door D5 was propped open for loading, so the interlock did not hold the lane. The envelope lists the door interlock as a dependency.
