

Incident report

Incident no: INC-0007

Site: S-007

Zone: PICK-A

Location: Aisle A, rack face 14B

Machine: AMR-07

Assets: PAL-5521; RACK-14B

Occurred at: 2026-04-02 14:07

Severity: Minor, no injury

Related records: WO-26-0402

Timeline

Time	Event
2026-04-02 14:05	AMR-07 starts pallet pick in aisle A
2026-04-02 14:07	Fork contacts rack upright; protective stop
2026-04-02 14:09	Fleet manager flags AMR-07 as blocked
2026-04-02 14:31	Technician clears the aisle and resets

Description

While lifting pallet PAL-5521 the left fork touched the rack upright and the mast stopped. The pallet stayed on the forks. No person was in the aisle.

Root cause

The rack face was 40 mm further out than the site map. The pick position had not been refreshed after the rack was re-bolted on 2026-03-28.
